## ANNOUNCEMENT.

To the Republican Voters of Harney and Malheur Counties:

I hereby announce my candidacy for the position of Joint Representative from this District in the next session of the Oregon Legislature, subject to your will in the matter.

If nominated and elected, it will be my aim to promote legislation that will enable the State to provide means for the care of the families of enlisted men; to provide for the protection of Oregon homes and industries, and to carry out the war to a successful and early conclusion.

I will also promote and work for legislation that will tend to increase the production of food stuffs, and prevent profiteering in the marketing of the same. I believe that our first and most important business is to win this war, and next to that, the encouragement of farm production, and if nominated and elected my efforts will be devoted to this policy as well as other meritorious legislation.

## Did Caesar Have His Dentist?

DENTAL Hygiene is the science of taking proper care of the mouth and teeth to promote good health.

Records of ancient times show that Egyptians, Babylonians, Greeks, Romans, all had a system of dentistry, however crude it may have been.

In 1866 the first College of Dentistry was established in the United States, at Baltimore. Dentistry has made rapid progress since then, and it is now recognized as a science in its importance to good health and human welfare.

You should know more about your teeth, their care, and their relation to your general health. Prevention is the key of the teeth and gums is the modern watchword of dental science. It is a great deal better to prevent troubles than to have them to cure.

The mouth is the gateway of the body. On the teeth depend mastication, digestion, nutrition, energy, health and happiness. Few mothers fully realize their responsibility for the injury likely to result if their children's teeth do not receive proper attention and care.
